

Appl. No. 10/552,236
Amtd. Dated March 20, 2009

• • R E M A R K S / A R G U M E N T S • •

Upon review of the application after receipt of the Notice of Allowance and Issue Fee(s) Due, applicants determined that in claims 1, 25 and 26 "oligomers" was misspelled as "ologomers" and that in claim 12, "isocyanate" as misspelled as "isocynate."

By the present amendment these misspellings have been corrected.

It is submitted that the changes to independent claim 1 are proper after the Notice of Allowance has been mailed because the changes are needed for proper disclosure and protection of the invention.

Moreover the changes do not require any substantial amount of addition work, beyond a cursory review, by the Examiner.

The basis of patentability of the claimed invention does not change with the amendments and no further searching or examination is necessitated by the amendment.

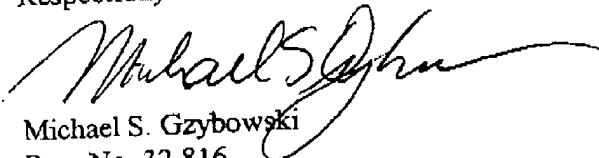

Accordingly, the present amendment is believed to be proper after Notice of Allowance and the Examiner is respectfully requested to consider and enter the amendment.

If upon consideration of the above, the Examiner should feel that there remain outstanding issues in the present application that could be resolved, the Examiner is invited to contact applicant's patent counsel at the telephone number given below to discuss such issues.
